

Bentonite/Grout Mixer Model CBM-300

Surface to Surface Inc.

Features and Benefits CBM-300G Mixer

The CBM-300 mixer is based on the time proven, patented design of the StS "M" series mixers. Powered by a 9 hp air-cooled gasoline engine, driving a 3" centrifugal pump makes effective use of the patented StS mixing system. This Bentonite/Grout mixer is capable of providing 300 gallons of fully blended product, ready for use, in less than 10 mins. The compact unit can be transported to the job site in a standard 8' pickup box.

Unit shown with optional tool carrier frame, lifting bale, discharge hose rack, suction tee piping with valve.

Specifications

CBM-300G Mixer

Benefits

Dimensions	48" W x 84" L x 83" H
Weight	1200 Lbs
Hopper Height	37" High
Mixing System	3" Patented StS Mixing System
Mixing Tank	300 gal Polyethylene, Cone bottom
Skid Frame	4" Steel channel, welded
Engine	9.0 hp air-cooled, manual start
Pump	3" Cast iron centrifugal trash pump
Pump Coupling	Direct coupled engine & pump
Fuel Tank	6 gal Polyethylene
Pipe Couplers	Bolt & Snap-groove type
Pressure Wand	Hopper maintenance wand
Hopper	Polyethylene hopper with bag table
Discharge outlet	1 1/2" Npt with brass ball valve

Small space saving footprint.
 Light weight for easy transportation.
 Waist high hopper reduces back strain.
 Fast, efficient, and reliable
 Low maintenance, zero bottom build-up
 Built tough for the construction trade.
 Industrial rated for longer service life.
 Rugged & repairable for extended service life.
 No expensive couplers or inserts to replace.
 Full day running without refill.
 Fast cleaning & draining of system.
 Removal of blockages caused by additive.
 Easy clean up. No bag balancing while filling
 Large discharge for fast pump off.

Options and custom configurations available. Contact surface to surface for details.

Also available: Electric (CBM-300E) or Hydraulic (CBM-300H) models.
