

# Universal 3" Mixer Model M3-E

## Surface to Surface Inc.

### Features and Benefits M3-E Mixer

The M3-E universal mixer is designed around the time proven M series mixers of STS. Powered by a 10HP Teco/Westinghouse electric motor, driving a 3" centrifugal pump makes effective use of the patented 4 point mixing system. The M3-E can be used as a new installation or retrofitted into an existing system of tank(s). Since the unit is connected by hoses and not hard pipe, the placement of the mixer versus the tank(s) is less restricted and a configuration to suit the needs of the contractor is easier to achieve. The small size also makes it a portable, independent unit that is easier to transport from site to site.

### Specifications

### M3-E Mixer

Dimensions	36" W x 42½" L x 35½" H
Weight	645 Lbs
Hopper Height	35-1/2" High
Mixing System	3" Patented StS Mixing System
Flow Valves	Brass and Steel construction
Skid Frame	1½" steel tube with fork pockets
Motor	10 HP Teco 360V/460V
Pump	3" Cast iron centrifugal trash pump
Pump / Motor Connection	Bearing Block to Lovejoy® Coupler
Vacuum Port	1½" NPT Inlet
Pipe Couplers	Bolt & Snap-groove type
Pressure Wand	Hopper maintenance wand
Internal Jet Guns	TurboMix™ Eductor Nozzles

### Benefits

- Small space saving footprint.
- Light weight for easy transportation.
- Waist high hopper reduces back strain.
- Fast & efficient with high shearing ability.
- Withstand the abuse of daily operations
- Built tough for the construction trade.
- Industrial rated for longer service life.
- Rugged & repairable for extended service life.
- Large bearings & oversized coupler (service life)
- Draw Fluid into system without additional pump.
- Fast cold weather draining of system.
- Removal of blockages caused by additive.
- Fast and effective rolling and mixing action.

Also available in Gas (M3-G) or Hydraulic (M3-H) models.
