

Universal 3" Mixer Model M3-G

Surface to Surface Inc.

Features and Benefits M3-G Mixer

The M3-G universal mixer is designed around the time proven M series mixers of STS. Powered by a 9 hp air-cooled gasoline engine driving a 3" centrifugal pump, it makes effective use of the patented 4 point mixing system. The M3-G can be used as a new installation or retrofitted into an existing system of tank(s). Since the unit is connected by hose and not hard pipe, the placement of the mixer versus the tank(s) is less restricted and a configuration to suit the needs of the contractor are easier to achieve. The small size also makes it a portable, independent unit that is easier to transport from site to site.

M3-G (Gasoline)
DRY WEIGHT
525 lbs.
Height 35 1/2"
(Height 50" with optional gas tank)

Specifications

M3-G Mixer

Dimensions	36" W x 42" L x 35 1/2" H
Weight	525 Lbs
Hopper Height	35-1/2" High
Mixing System	3" Patented StS Mixing System
Flow Valves	Brass and Steel construction
Skid Frame	1 1/2" steel tube with fork pockets
Engine	9.0 hp air-cooled, manual start
Pump	3" Cast iron centrifugal trash pump
Pump Coupling	Direct coupled engine & pump
Vacuum Port	1 1/2" NPT Inlet
Pipe Couplers	Bolt & Snap-groove type
Pressure Wand	Hopper maintenance wand
Internal Jet Guns	TurboMix™ Eductor Nozzles

Benefits

- Small space saving footprint.
- Light weight for easy transportation.
- Waist high hopper reduces back strain.
- Fast & efficient with high shearing ability.
- Withstand the abuse of daily operations
- Built tough for the construction trade.
- Industrial rated for longer service life.
- Rugged & repairable for extended service life.
- No expensive couplers or inserts to replace.
- Draw Fluid into system without additional pump.
- Fast cold weather draining of system.
- Removal of blockages caused by additive.
- Fast and effective rolling and mixing action.

Optional: 7 gal fuel tank
Also available in Electric (M3-E) or Hydraulic (M3-H) models.
