

300 Gallon Tank Kits Model TK-300, UTK-300

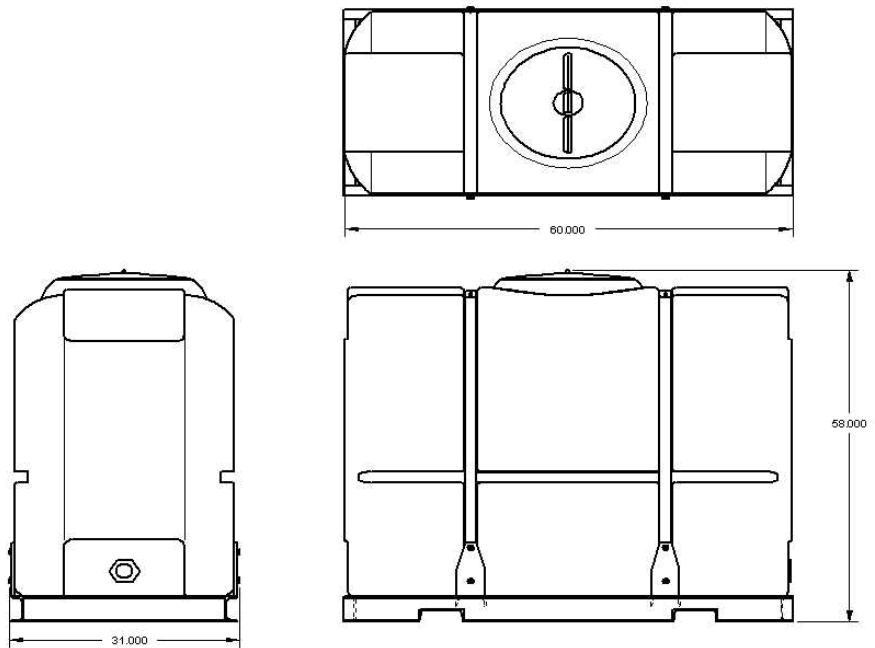

Surface to Surface Inc.

Features and Benefits 300 Gal. Tank Kits

The TK300 & UTK300 were designed to upgrade the M-300 Series mixers, but may be used with competitors' mixers.

The **TK-300** Model is used as a companion tank to provide an additional 300 US gallons of water. It includes the steel frame and 300 gal Roto-moulded tank, but does not include plumbing or jets.

The **UTK-300** Model is used to increase the mix capacity of Bentonite mud mixers, and upgrades an M-300 to provide 600 gallons of full-yield mud to your drill rig in less than 5 minutes. It is supplied with pre-installed Jet guns, Pipe fittings, Hoses, Tank bungs, and Valving. Coupled with an M-300 Mixer, the compact unit can be transported to the job site in a standard 8' pickup box.

Specifications

- Dimensions
- Weight
- Skid Frame
- Tank Drain

TK-300/UTK-300 Tank Kits

- 31" W x 60" L x 50" H
