

# 750 Gallon Tank Kits Model TK-750, UTK-750

## Surface to Surface Inc.

### Features and Benefits 750 Gal. Tank Kits

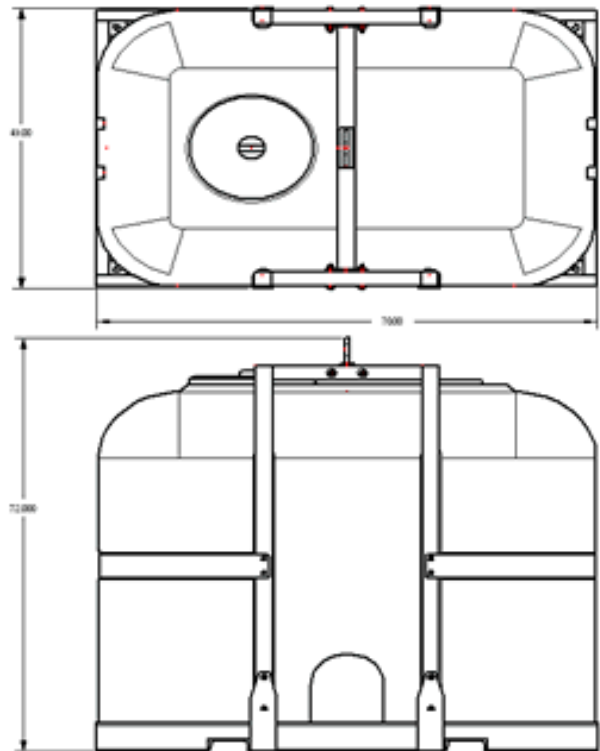

The TK750 & UTK750 were designed to upgrade the M-750 Series mixers, but may be used with competitors' mixers.

The **TK-750** Model is used as a companion tank to provide an additional 750 US gallons of water. It includes the steel frame and 750 gal Roto-moulded tank, but does not include plumbing or jets.

The **UTK-750** Model is used to increase the mix capacity of Bentonite mud mixers, and upgrades an M-750 to provide 1500 gallons of full-yield mud to your drill rig in less than 10 minutes. It is supplied with pre-installed Jet guns, Pipe fittings, Hoses, Tank bungs, and Valving.

TK-750

### Specifications

Dimensions  
Weight  
Skid Frame  
Tank Drain

### TK-750/UTK-750 Tank Kits
